

Barrel Clamps

Barrel Clamp - A Barrel Clamp is really a hydraulic or mechanical attachment for a forklift. It can be utilized so as to grip the object you wish to transfer utilizing the lift truck and is typically used for handling paper rolls, barrels, and kegs. Several types of barrel clamp accessories even have a rotate function. For instance, the rotate function enables the person operating the forklift to be able to insert a vertically stored paper into the horizontal intake of a printing press.
