

Rockwell Parts

Rockwell Part - The company of AxleTech International is a large supplier of specialty vehicle drive-train systems and parts along with off highway vehicles. They take great pride in being a chosen supplier to their customer base. AxleTech strives to exceed and meet their customers' expectations for quality, service, technology and delivery. They believe in working in an environment that encourages the utmost integrity with empowered collaboration, along with a unyielding pursuit of results.

AxleTech International is a General Dynamics business. They believe strongly in actively applying principals of environmental safety and stewardship in how they do business. The business has put various programs in place in order to articulate these values in their business policy. AxleTech happily shares this policy and welcomes interested parties to offer them with whatever comments or questions, because they are happy to promote and share this policy with a greater knowledge of their efforts. They are extremely devoted to improving and preserving the natural world. AxleTech has an EHS program which not just protects the environment but which also actively protects their neighbors and employees too.

AxleTech prides themselves as being a ground-breaking drive-train solutions provider. They specialize in manufacturing and designing planetary axles for both commercial and military applications. These applications range from airport ground support to construction equipment. AxleTech particularly designs axles to be able to meet certain application demands. They have over 1000 various axle specs within their existing offering. With more than one hundred years of knowledge and history, AxleTech proudly supplies the most complete solution for whichever of your axle requirements. The business is well known in several military and commercial applications. They offer complete axle assemblies for aftermarket replacement needs, along with servicing axle needs for OE production. Their high mobility ISAS have extra details which can be seen in the "ISAS" product collection.
